Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2627

1) The amendment filed 11/28/2006 is acknowledged. New claims 15-20 have been added.

2) The drawings were received on 11/28/2006. These drawings are acceptable.

3) The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

4) (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5) Claims 1 and 5-7 are rejected under 35 U.S.C. 102(e) as being anticipated by YASUHARA (US 2003/0053638).

The rejection of claims 1 and 5-7 in previously Office action is repeated herein.

6) The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this

Art Unit: 2627

Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7) This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

8) Claims 2-4,8 and 10-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over YASUHARA (US 2003/0053638).

The rejection of claims 2-4,8 and 10-14 in previously Office action is repeated herein.

As to claims 15 and 16, mute and pause states are old and

Art Unit: 2627

widely used in audio reproducing art (see applicant's specification).

As to claims 17-20, the feature of switching between single mode to dual mode, selecting headphone from second unit in dual mode, playback from second output unit in dual mode and accept signals from second output unit in playback modes are old and widely used in the art as disclosed by applicant's specification, pages 1-7.

9) Claim 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10) Applicant's arguments filed 11/28/2006 have been fully considered but they are not persuasive.

Applicants states that " reference of YASUHARA does not inhibit operation of the rear controller if it is decided that the play-back signals from a common play-back source are in an output-stopped state ".

YASUHARA discloses a play back device capable of selectively

Art Unit: 2627

enabling or disabling a rear controller regardless of whether common play-back source are in an output-stopped state or not. In another words, the play back device of YASUHARA is capable of functioning in both conditions (i) common play-back source are in an output-stopped state and (ii) common play-back source are not in an output-stopped state. Therefore, the claims are still anticipated the reference of YASUHARA as indicated in the rejection.

11) THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREEMONTHS** from the mailing date of this action. In the event a first reply is filed within **TWOMONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIXMONTHS** from the mailing date of this final action.
